

Package Strengthening

Helps provide inner support which helps to prevent pallets/cartons collapsing or skewing.

Practical in Operation

Practical, as they are light weight, strong and available in many sizes

Vertical Protection

Helps keep pallets/boxes in balance

Edge Protection

Helps keep the products together and provides full protection during shipment and storage

Strapping Protection

Prevents crushing and other damage caused by strapping.

EB-180050-4	1800mm	50 x 50 mm	4mm	White
EB-210050-4	2100mm	50 x 50 mm	4mm	White
EB-5050-4	50mm	50 x 50 mm	4mm	White

DURA-GRIP Plastic Edge Protectors

- Dura-Grip Plastic Edge Protectors are designed to prevent strapping from cutting into cartons and damaging contents, particularly where 'voids' occur.
- They are also often used on packs of timber to prevent damage by the Strapping.
- Plastic Corner Protectors have ridges to hold up to 22mm strapping in place - helps secure goods during transit.
- Made with 100% Recycled Plastic.
