# SIDE SEALING Carton Machine

## Pacmasta PMCS-100

We have designed the Pacmasta Carton Sealing Machine for closing uniform cartons with the same height and width. Moreover, it is an excellent choice for any low to high volume box closing needs of the industry. Our PMCS-100 Carton Sealing Machine can tape both top and bottom of the carton simultaneously at a fast speed. The box to be sealed is driven by the two side belts through the machine, while rolling dispensers apply the pressure sensitive tape. After the sealed box is discharged, the machine is immediately ready for the next box.

Easy Operation  
Push box & release

Double Motor  
(Side drive belts)  
can push heavy boxes

Robust Machine  
Design Long working,  
trouble-free life

Freely Movable on Caster  
Wheels. Wherever your  
packing work is done

# SIDE SEALING Carton Machine

Pacmasta PMCS-100

## STANDARD FEATURES
