

# Pacmasta PMCS-150

High quality side driver carton sealing machine

Carton Sealing Machine

**Pacmasta®**

## Easy Operation

Push box & release

## Robust Machine Design

Long working, trouble-free life

## Triple Motor with 4 drive belts

Can push heavy boxes

## Freely Movable on Caster Wheels

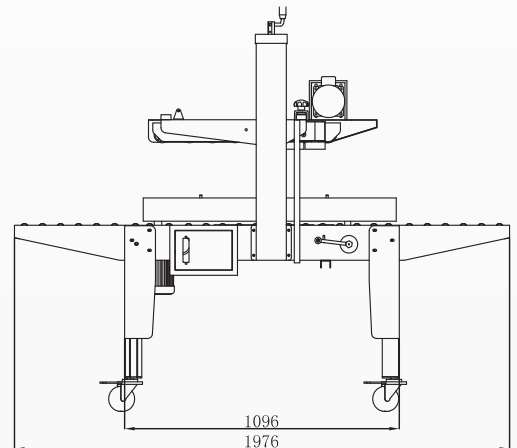

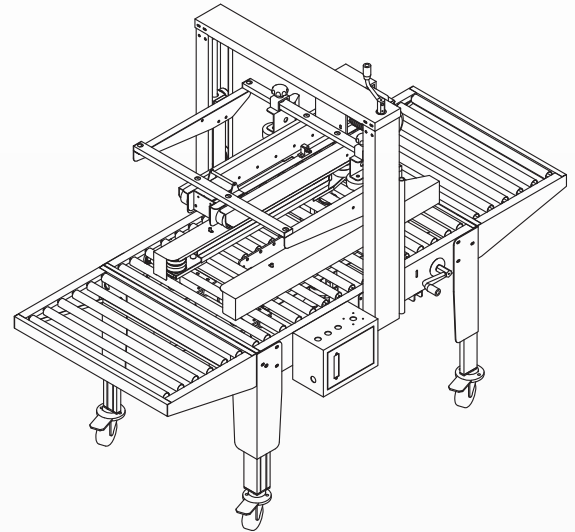

Wherever your packing work is done

# The Best Quality Carton Sealing Machine

We have designed the Pacmasta Carton Sealing Machine for closing uniform cartons with the same height and width. Moreover, it is an excellent choice for any low to high volume box closing needs of the industry. Our PMCS-150 Carton Sealing Machine can seal both top and bottom of the carton simultaneously at a fast speed. The box to be sealed is driven by the two side belts through the machine, while rolling dispensers apply the pressure sensitive tape. After the sealed box is discharged, the machine is immediately ready for the next box.

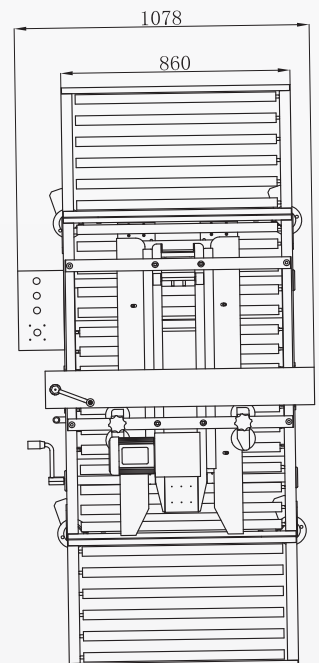

## Pacmasta PMCS-150 Features

- Fast taping of all types/sizes of cartons/boxes (Height adjustable)
