

Dura-Grip

EDGE Board Cutter

The Dura-Grip Edge Board Cutter is a safe way to cut and trim Cardboard Edge Boards to various lengths. It is easy to use - simply put the board into the V-Shaped opening and pull the handle. The easily replaceable blades will give a clean guillotine cut to the board. Perfect for shippers who use various lengths of boards, framing companies, cutting edge protection products for use as stabilisers within cartons, recycling of edge protection products and anywhere these products are trimmed or cut.

Easy to Use - simply pull handle down

Ergonomic Design - Pig tail shape handle

Clean cut - Sharp Guillotine blades

Safety First - Cannot be used unless pin is removed

EDGE Board Cutter

EBC-110

Dura-Grip

ADVANTAGES

- The cardboard edge protector cutter can be fixed on a bench with clamps or be portable.
- Cuts edge protectors sizes up to max 100 x 100 x 10 mm.
- Comes with a safety pin to lock the cutter handle in place while not use.
- Ergonomic pig tail shape handle ensures easy cutting. Gentle on delicate edges and surfaces
