

Pacmasta®

SIDE SEALING Carton Machine

Pacmasta PMCS-70

We have designed the Pacmasta Carton Sealing Machine for closing uniform cartons with the same height and width. Moreover, it is an excellent choice for any low to high volume box closing needs of the industry. Our PMCS-70 Carton Sealing Machine can seal both top and bottom of the carton simultaneously at a fast speed. The box to be sealed is driven by the two side belts through the machine, while rolling dispensers apply the pressure sensitive tape. After the sealed box is discharged, the machine is immediately ready for the next box.

Easy Operation
Push box & release

Double Motor
(Two side drive belts)
can push heavy boxes

Robust Machine
Design Long working,
trouble-free life

Freely Movable on Caster
Wheels. Wherever your
packing work is done

SIDE SEALING Carton Machine

Pacmasta PMCS-70

STANDARD FEATURES

- Fast top & bottom taping of all types/sizes of cartons/boxes (Height adjustable)
- Easy operation, just push box & release
- Double motor (two side drive belts), can push the heaviest of boxes
- Heavy-duty body with powder coated finish
- Robust machine design & long-working, trouble-free life.
- Freely movable on caster wheels, wherever your packing work is done
- Interchangeable top and bottom dispenser
- Tape overlap length can be adjusted
- Blade guards, safe to work

ADVANTAGES

- Precise operation
- Technically advanced
- Saves time
- Lifts productivity
- Seals cartons neatly & efficiently
