# Side Sealing Carton Sealer

## Pacmasta PMCS-110

We have designed the Pacmasta Carton Sealing Machine for closing cartons and foam boxes with lids the same height and width. It is an excellent choice for any low to high volume box closing needs of the industry and suits cartons up to 480mm high and 410mm Wide. Our PMCS-110 Side Sealing Carton Machine can seal both sides of the carton simultaneously at a fast speed. The box to be sealed is driven by two top belts and two bottom belts through the machine, while rolling dispensers apply the pressure sensitive tape. After the sealed box is discharged, the machine is immediately ready for the next box.

Easy Operation  
Push box & release

Triple Motor  
(Two top and two  
bottom drive belts)

Robust Machine  
Design Long working,  
trouble-free life

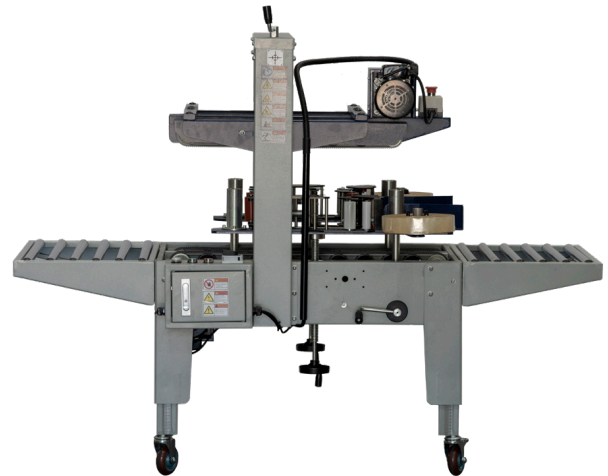

Freely Movable on Caster  
Wheels. Wherever your  
packing work is done
