# SEMI-AUTO Strapping Machine

## Pacmasta TMS-500

The TMS-500 is a new generation semi-auto strapping machine. It uses direct drive technology with German -made DC motors which ensures high reliability and durability of the machine. Its compact design greatly minimises the numbers of moving parts, requires fewer adjustments, less maintenance, and has fewer wear components..

Simple operation for efficient strapping

Single motor operation

Freely movable on caster wheels. Wherever your packing work is done

# SEMI-AUTO Strapping Machine

## Pacmasta TMS-500

### Main Features

#### Compact Mechanical Strapping Head

With 30% less moving parts than conventional machines, substantially reduces maintenance issues. There are no belts, chains or pulleys. Extremely low noise sealing head.

#### Electronic Tension Control

Adjustment for strap tension (8 – 45kg) can be easily done on the front control panel.

#### Jog Switch

Use the 'Jog Switch' to adjust the machine to exactly the correct position for maintenance.

#### Adjustable Weld-Cooling Time

The weld-cooling time can be increased to ensure high joint efficiency under high tension.

### Options

- Safety switch under the table top

### Technical Data

STRAP WIDTH	5mm – 12mm, or 12mm – 15.5mm
TENSION RANGE	8 – 45KG
TABLE HEIGHT	780 - 950mm
NET WEIGHT	70kg
POWER	230V, 240V, 50/60Hz, 1PH

### Specifications
