# Paper Dispenser with Crumpler Device

The KPDC-HW has a manual pull system that crumples and dispenses kraft paper for void-fill use. The unit is made from solid steel and can be mounted to a table, wall, or mobile stand for convenient placement within your warehouse.

## Features

- Made specifically for kraft paper and can dispense vertically or horizontally.
- Body funnels kraft paper to produce a manageable bundle of crumpled paper. Use the built-in serrated cutter to cut crumpled material to desired length
- Features a simple hook-mounted handle for easily changing out rolls

Product code	Width
KPDC-60HW	600mm
KPDC-90HW	900mm

## Options

- Mobile Stand Sold Separately
