Convert Waste Cardboard to Quality Packaging Material

The Pacmasta Eco EcoShred Packaging Shredder is the perfect machine for users to protect the environment and save money by converting existing corrugated cardboard boxes into high quality, versatile packaging materials. This in turn results in a great reduction in costly bubble wrap or plastic chips and air fill, with much less waste ending up at landfill. The EcoShred CBS 320 can pay for itself in under a year by recycling existing cardboard into handy packing sheets - and it features a connection for a vacuum dust extraction system (sold separately) making it one of the safest, cleanest and quietest cardboard shredders on the market.

Enhanced user safety
incorporates an emergency
cut off switch

Solid steel cutting rollers
for low maintenance and
extra-long lifespan

User-friendly design with
incorporated dust free
vacuum (vacuum extra)

Energy-efficient drive
system and motor torque
even at low speed
